Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Sunday 02 May 2021

UK Outlook for Monday 17 May 2021 to Monday 31 May 2021:
Confidence is low for this outlook, as is typical of late spring. A mixture of sunny spells and showers is likely, especially at first, with areas in the south experiencing the most settled and dry conditions through this period. Towards the north there is an increased chance of unsettled weather as longer spells of rain and strong winds arrive from the Atlantic at times. Temperatures most likely to be around average for the time of year.
